6 50% recycling by 2010 and no incinerator

- ✓ Ditch Labour's dirty and expensive incinerator - use clean and cheap new technology
- ✓ Free corn-starch liner bags for food waste
- ✓ Reverse drop in recycling rates under Labour

Choose a better future...

People tell us that they are sick of constant change in the Council. They want to see a stable and positive leadership for the city.

In February **Labour** walked away from power for the second time in five years. They realised that public opinion and scientific fact had shifted against them over their plans for a dirty and expensive incinerator. So they walked out and sulked.

The tiny **Tory** group just plays silly political games to cause chaos. They have no real power in Bristol and no chance of ever

being in control. So they try to destabilise things to get some press coverage.

THIS JUNE YOU WILL HAVE A CHANCE TO CHANGE ALL THIS.

The **Lib Dems** need just four more council seats to take majority control and give Bristol a stable leadership. This would be the first time since 2003 when Labour lost their stranglehold on the city. No other party can possibly do this in June.

PLEASE GIVE THE LIB DEMS YOUR VOTE IN JUNE AND CHOOSE A BETTER FUTURE!

Your choice... Lib Dem progress or Labour/Tory chaos
